## *From the Executive Director*

Dear friends,

As VINE celebrated its 15th birthday this year, I experienced a rich time of reflection. In 1995, VINE was a fledgling little non-profit housed in a tiny office at the Pastoral Center of SS. Peter and Paul's Catholic Church. As the founding director and the only staff person for the first couple years, it was often necessary for me to lock the office and personally give someone a ride to the doctor. My adult children now joke about the times I would drive them and their junior-high-aged friends to shovel snow at care receivers' homes before taking them to school. Our board members (and their kids) did similar good deeds as VINE's roots began to spread through our community.

At VINE we're pragmatic and willing to do what needs to be done so that people get the help they need. In 15 short years, VINE's budget, scope of service, and impact have all grown exponentially. With that said, I believe that we have stayed true to our purpose and our homegrown roots. Over the years, we have taken calculated risks to enhance the life of our community and sustain our services. For example:

- In 2006, when The Mankato Area Senior Citizens Center board of directors decided to cease operation of the Summit Center, VINE stepped up and agreed to manage the 50-year-old senior center. Under VINE's leadership, a wide array of wellness programs and volunteer opportunities have produced exponential growth in Summit Center participation.
- Also in 2006, at the request of the Greater Mankato United Way, VINE implemented the People to Jobs Program. Where public transportation is not a viable option, VINE drivers provide employment transportation to single parents, people with disabilities, new Americans and other low-income workers – and make daycare stops for the worker's children as needed.
- This past year, in response to declining public funding and expanding human need, we opened the VINE Home Thrift Store to provide a new revenue stream and licensed some of our vehicles as cabs to ensure that neighbors with limited resources could access needed medical care.

Our willingness to respond to local needs has created a space problem that must be addressed so we can continue to grow. In coming months, you'll hear more about our plans to re-purpose the Nichols Building on the original MSU campus. With additional program and parking space, VINE will be able to do so much more to help friends and neighbors age with dignity and grace in the community we love.

Kindly,

*Pam Determan*

## *From the Board President*

I joined the VINE Board to help others in need, and to understand and better appreciate what VINE really does. My time as the board president has been truly eye opening for me to see how much VINE contributes to the community, especially people in need. VINE fills in a huge gap that forms as we get sucked into our own busy lives and forget what is happening around us. Those who are in need may be calling out for help and we can simply forget to hear them while we are busy working, driving kids to their tournaments, or having fun. But VINE is always there for them. Most importantly for me, a busy mom and small business owner, VINE reminds me to always think about them.

At this moment, VINE's operations are divided into bits and pieces of locations. We do not have enough space for the Summit Center's ever-increasing participants, parking for the Summit Center and office, and storage for all the lawn mowers, snow blowers, walkers, and other tools that VINE uses for helping others. If the Nichols Building can become VINE's operational center, it can house the Summit Center, VINE employee offices, and all the necessary storage, improve the safety and size of VINE/Summit Center parking lots, and provide added spaces for wonderful new classes and activities.

I hope to see comfortable spaces for older adults to mingle and just have a good time, to exercise without feeling intimidated, to participate in many fun classes, and to meet others so that their life is independent and meaningful. I also hope to see a neat, comfortable, and affordable café that everyone in the community can use and that will give older adults the opportunity to gather with people who may not otherwise participate in Summit Center activities.

Integration of the Summit Center, chore group, transportation group, and all the other VINE office workers into one building will make daily operations even more efficient. I see the Nichols Building becoming a new campus for a community of people that includes those who are in need, those who are willing to help, and all of us who need to hear how we can help and be helped out of that gap that forms if we forget what is happening around us.

Sincerely,

*Kaeko Leitch*

## Highlights and Milestones

August 2009

The VINE Home Thrift Store opened for business in the former Slumberland Clearance Center at 77 Star Street in Mankato. Specializing in gently-used home furnishings and accessories, VINE's social enterprise realized a profit during its first ten months of operation.

December 2009

VINE's Christmas Sharing Project helped 65 local neighbors to have a brighter holiday celebration.

February 2010

VINE Faith in Action celebrates 15 years of service to the people of Blue Earth and Nicollet Counties. With kindness and compassion, staff and volunteers have assisted thousands of care receivers and their family members to face the challenges of growing older or living with a disability or difficult life circumstance. 400 people attended VINE's summer birthday party at Wheeler Park in North Mankato.

April 2010

In response to MN Department of Human Services' decision to no longer reimburse for unloaded miles, VINE purchased three vehicles and licensed them as taxicabs. Volunteer drivers use these vehicles each day to provide medical rides to community members whose health care is funded through a state health plan.

Greg White, a licensed contractor, joined the VINE staff as the chore program manager. We acknowledged with gratitude the services of Fred Miller, who served VINE well during his eight year tenure in that position.

May 2010

The VINE Board explored numerous options to obtain much needed programming and parking space for the Summit Center and VINE's headquarters on Third Avenue. Locating a suitable facility to house the organization "under one roof" was determined to be a high priority.

June 2010

VINE entered into serious discussion with Blue Earth County Administration to obtain and re-purpose the 60,000 square foot Nichols Building, which was slated for deconstruction when a suitable buyer was not identified. Located within the central core of Mankato, this landmark building would house the senior programming of the Summit Center and consolidate the offices and programs of the organization. A successful fundraising effort would allow VINE room to grow and develop programs and services to address the needs of the coming age wave.

July 2009 -  
June 2010

- VINE's professional staff visited and registered 198 first time care receivers: 30 people < age 65 and 168 people age 65+. This represents a 28% increase from the previous year.
- Older adults made 23,564 visits to the Summit Center, which represents a 9.3% increase in usage from the previous year.
- 566 trained adult volunteers assisted over 3,500 community members with transportation, home chores, respite care, friendly visits and a multitude of other tasks that helped neighbors through the challenges of life. Since VINE assumed management of the Summit Center in 2006, weekly participation has grown from 50 to 485 people per week. The organization is rich in human resources; however, additional space for programming and parking is critical for continued growth.
